

## ESF-10 Reps Call

Nick:

- Inform Nike and Mike about Arkema conditions
- Army Core of Engineer subject matter experts should be in Austin, fine with going out with state under our mission assignment as long as they get info to report upline
- JFO will open have a soft opening Thursday, and fully open Friday or Saturday in Austin– need to decide how it will be staffed.
  - Possibly manned with one person with a START, additional may be needed if JFO operates 24 hours
  - REOC will do a 213rr to deploy a person to man tomorrow.
  - Must contact FEMA to figure out
  - A few START may be available in Austin or Houston
- NRCC wants a projection of how much mission assignment money will be needed for the next 90 days
  - Will compile an average from Katrina and Ike

Mike:

- Governor and staff are being briefed on Arkema
- FAA request won't be changed, but a waiver can be requested in Austin
  - IC Commander can make that request
- Who is OSC for Arkema response?? Bill Rotenburry. Is he deploying? Monica will check and see.
- Plans in works for Administrator's visit tomorrow – David Gray is coordinating that. Gray will be arriving in Corpus today along with Sam.

Matt:

- 7 teams doing hazard evaluation of containers today. Left around 0930.
- Water assessment team in Austin (TCEQ staff (3). Assessing Aransas, Holiday Bay.
- Oil discharge assessment team looking at point entered by Coast Guard
- Team assessing NPL sites
  - Info will be included in bullets
- 3 Day IAP will be completed today, SITREP completed this evening.
- A 213rr for a START to go to New Orleans to help with response manager and a few other systems.

Misc:

- SITREP is posted an exclusive until it receives approval. It is then PDF'd and marked as exclusive.
- A call with a state needs to be scheduled to update them on Arkema
- Ronnie Crossland will be deploying to Austin as liaison officer as early as tomorrow.
- Mary Peterson is acting for Carl Edlund
